The Oyen News

A paper published every Wednesday in the interests of Oyen and surrounding districts.

Subscription in Canada, \$2.00 a year To the United States and Foreign Countries, \$2.50 a year.

Legal Notices are published at the rate of fifteen cents a line for the first insertion and ten cents a line for each subsequent insertion; measured nine lines to the inch, including heading.

Classified Advertisements, such as Lost, Found, Wanted, For Sale, etc., are published at the rate of eight cents a line for the first insertion and four cents a line for each subsequent insertion, with a minimum charge of fifty cents and twenty-five cents respectively.

Local Notices not coming under the heading of Classified Advertisements are published at the rate of ten cents a line with a minimum charge of fifty cents.

Display Advertising according to run. Rates given on application. Changes for Display Advertisements, or copies of withdrawal of same, must be in the office by Monday noon, in order to receive attention in the following issue.

CHAS. L. DUNFORD,
Editor and Publisher

For those who say, "Oh, what's the use?" we commend the following story: A young man ran for the legislature of Illinois and was badly swamped. He next entered business failed and spent seventeen years of his life paying up debts of a worthless partner. He was in love with a beautiful young woman, to whom he became engaged—then she died. Entering politics again, he ran for Congress and was swamped. He then tried to get an appointment in the United States land office, but failed. He became a candidate for the United States Senate and was badly defeated. Then he became a candidate for the vice-presidency of the United States, and was once more defeated.

One failure after another—bad failures—great setbacks. Then he became one of the greatest men of America—Abraham Lincoln.

COUNCILERS ORGANIZE

The annual meeting of Oyen Curling Club was held last week at Oyen Theatre, when officers were elected as follows:

Honorary President—James Lees
President—Thomas Lees
1st Vice-President—M. G. Whitlock
2nd Vice-President—Chas. Stewart
Secretary—W. V. Miller
Executive Committee—James Lees, Alf Johnson, J. J. Kelly and E. P. Harber.
Ice Committee—S. A. Miller, Fred Lake and A. Wade.
Membership Committee—T. Lees, Alf Johnson and George Morrison.
Drummaster—Chas. L. Dunford.

It was decided to follow last season's method of picking rink. Skips elected to choose their own rinks including in their personnel, one new curler and in the event of there not being enough new curlers for every rink, a first year man could be used.

The following skips were elected: E. P. Harber, B. H. Dick, Chas. L. Dunford, J. J. Kelly, Fred Lake, Theo. Lees, S. A. Miller, George A. Morrison, C. Peterson, A. Wade and M. G. Whitlock.

Bonaparte Scheduled

Drumheller—January 6-8
Della—January 13-15
Crimley—January 20-22
Kindersley—February 3-5
Yongstons—February 10-12
Hanna—February 17-19

Dates For Seed Fair

The dates for the annual provincial seed fair to be held this year at Calgary are announced tentatively as being January 20 to 23. The arrangements are in the hands of the provincial department of agriculture and the Alberta Seed Growers' Association.

Municipal Convention

The annual convention of the Alberta association of municipal districts is being held in Calgary Thursday and Friday of this week.

Holds Corn Show

Another stage in Alberta's progress as a corn growing country was marked last week with the holding of a corn show at Milk River, south of Lethbridge. There was a good number of entries and the exhibits were of a good quality.

Crossed Atlantic Unafraid

A very pathetic figure, as he stepped off the Canadian Pacific train, between the conductor and an official of the department of immigration, into the noise of hurrying express trucks, and the bustle that attends the arrival and departure of friends, Samuel Molyneux, 205 Oakwood Avenue, Toronto, as the label on his little bag proclaimed him, paused for a moment, and then, overcome by a sense of loneliness produced by the loss of his friends of ship-board and train, burst into tears. A second later he was seized by his mother, from whom he had been separated for one and a half of his four years, and sobbed himself to contentment.

Samuel came to Canada on the Marquette, making the complete trip from the old land to Toronto by himself. He had been a favorite ship-board, according to reports, because particularly attached to the ship's nurse but was the pet of all the passengers and crew.

A good story is told of a local man who visited the north country with a view of ascertaining its possibilities. While looking over the land, he got into conversation with one of the residents, whom we will refer to as Mr. —er, well, we'll call him Cockleberry. "How many acres of wheat do you say you had last?" he enquired of Mr. Cockleberry. "Well, now, let me see, I'm not just sure whether it was seventeen and-a-half or seventeen and-three-quarters. I think to be exact, it was seventeen and-three-quarter acres."

LEGAL NOTICE

THE LAND TITLES ACT MORTGAGE SALE OF FARM PROPERTY

PURSUANT to the directions of the Registrar and by virtue of the Powers of Sale provided by "The Land Titles Act" under a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction at the Post Office in the Village of Oyen, in the Province of Alberta, on Saturday the 6th day of December, 1924, at the hour of Two o'clock in the afternoon, the following property, namely:

The north-west quarter of Section 30, in township 29 and Range 3, west of the Fourth Meridian in Alberta, now serving unto His Majesty all mines and minerals.

TERMS OF SALE to be twenty per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of the sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances save a charge of Lease on expiring 31st December 1924, and taxes for the current year.

The vendor is informed that the above property is situated about 12 miles North of Oyen on the C.N.R. that there are situated thereon a granary 14 ft. by 18 ft. and a stable 16 ft. by 23 ft. and that about 160 acres are under cultivation.

For further particulars and conditions of sale apply to:
THOMAS LEES,
Oyen, Alberta.
DATED this 36th day of October, A.D. 1924.
Approved: W. Forbes, Registrar.

Ray you saw it in the News.

MAJ.-GEN. STACK IS THE VICTIM OF ASSASSIN'S PLOT

Cairo.—Major-General Sir Lee Ochterlony Stack, Governor-General of the Sudan and brother of the Egyptian army since 1918, has succumbed to the bullets of assassins.

The Sir Lee was attacked by a group of men, who, failing to achieve their purpose with a bomb, opened fire on him with revolvers. General Stack was wounded in the abdomen, the hand and the foot, one of the bullets passing under the lung. From the first, his condition was serious, and there was very slight hope that he would recover.

The whole country is profoundly shocked at the outrage, and the gravity of the situation is everywhere realized. The press denounces the crime in the strongest terms. The Egyptian papers unanimously declare that Egypt's honor demands the discovery of the culprits and their exemplary punishment. Nothing, they will be neglected "to wash away the bloody stains on the country's honor."

The announcement from Cairo of the death of Major-General Sir Lee Stack has aroused tense feelings in London. The British cabinet held a special emergency council, probably for the purpose of discussing the outrage and policy to be followed.

Although the King of Egypt and the Sudan authorities have taken a correct attitude, it is expected that the British government will dispatch a strong note insisting on prompt satisfaction for the assassination and guarantees for cessation of anti-British propaganda.

Britain Is Expecting Reduction In Postage

Possible New That Postmaster-General's Department Shows Surplus

London.—An incoming demand is being made for the restoration of penny postage in this country, and it is believed that the postmaster-general from an intelligent surmise that the postal revenue will now permit of such reduction that the postmaster-general will be quite agreeable thereto. The new postmaster-general comes from the ranks of the civil service, which leads to the hope that the return of the penny postage may come soon.

Veterans Will Ask For Wider Scope

Think Pensions Appeal Board Should Have More Latitude

Ottawa.—"We are going to ask for the coming session of parliament for the enactment of the legislation granting the right to enter appeals before the board of appeals from all decisions of the board of pension commissioners and department of soldiers' civil re-establishment," stated C. Grant McNeil, secretary of the Dominion committee of the Great War Veterans' Association.

At the present time appeals lie on questions concerning the origin of the man's disability.

Study U.S. Farm Problems

Washington.—After deciding to give co-operative marketing and conditions in the cattle industry priority in their study of agricultural problems, with a view to having definite conclusions as to these ready for legislative action during the session of congress which convenes next month, the president's agricultural committee recessed after its third session, probably until January.

Spanish Officer Killed

Madrid.—A report from Morocco states that General Serrano, in command of Spanish troops fighting the Rifian tribesmen, and a lieutenant-colonel, whose name was not given, have been killed.

May Enter Municipal Campaign

Ottawa, B.C.—The present plans to man the local council in the women will enter two women candidates for municipal honors this year.

Cold In The Head

Hot Mung's and inhalant often, Splendid for colds.

W. N. U., 1522

Wrangel Island Party Was Well Treated By Soviets

Vladivostok.—The Soviet expedition which recently visited the Russian fleet on Wrangel Island returned here on the armed transport Red October. On board was Charles Webb, member of the Wrangel party, who was taken off the island with 33 Eskimos. According to Soviet officials, Webb made a written statement in the presence of a British consul, stating that he left Wrangel on his own accord and was entirely satisfied with his treatment during the voyage of the Red October to Vladivostok.

Reciprocal Trade In Meat

Reported That Baldwin Government May Permit Dominions to Supply Meat Under License

London.—The British government has been asked by the Dominion Government to extend reciprocal treatment to the Dominions in the matter of meat, without entering a fiscal controversy, and without increasing the cost of living here, or imposing a tariff on foreign commodities, it is understood by the Dominion government, according to The Morning Post. The idea is to estimate the home consumption of meat for six months, and to permit the Dominion to supply, under a license, whatever the deficiency is likely to be after the home supply of meat has been met. If the Dominions cannot supply enough meat to meet the deficiency in the home supply, the Post says, the proposition is to then allow meat from foreign countries to be admitted under a license.

Alberta To Have Sugar Beet Factory

Southern Part of Province Good For Beet Raising

Salt Lake City.—The Utah-Bahia Sugar Company, of Salt Lake, which has a beet sugar factory in Southern Alberta, Canada, in the future, and the one in the Yakima Valley, Eastern Washington, will be discontinued, according to announcement by company officials here. The Yakima Valley plant is considered located in poor soil and the Dominion territory, and the prospects in Alberta are declared good for beet raising. How much will be spent in construction of the Alberta factory was not made known.

South Africa Will Exhibit Next Year

Government Decides to Again Participate in British Empire Show

Ottawa.—South Africa will again participate in the British Empire Exhibition at Wembley next year, an announcement to this effect having just been made by the Her Majesty's Government. This is a reversal of the South African Government's decision of October, when it was announced it would not exhibit at Wembley in 1925. The governments of New Zealand and Ceylon are now the only ones who have decided definitely not to repeat their exhibits at Wembley next year. So far India is apathetic on the matter.

Winter Fair Exhibits Increase

Seed Exhibit in Toronto Greatest on Continent Is Claim

Toronto.—Exhibits in the dairy products and seeds at the Royal Winter Fair were so large and competition so keen the judges were unable to complete their task as quickly as usual, and results in only a few of the seed competitions were announced the first day. The seed exhibition, which was the greatest on the American continent, every province is represented in data products which constitutes a record.

Bird Aired At Chinese

Victoria, B.C.—Employment of Orientals and white girls together in the homes of British Columbia will be allowed if a bill, introduced in the house of the legislature by Mr. Ralph Smith, Liberal, Vancouver, passes. Mr. Smith's move follows a vigorous agitation by Vancouver British societies as a sequel to the Janet Smith murder case.

Famine In China

London.—One and one-half million Chinese residents of the Chi Lo Province have starved as a result of recent floods which destroyed 5,000 villages according to central dispatch from Tien Tsi.

Picture Producer Dies

Hollywood, Cal.—Thomas H. Ince, well-known picture producer, died as a result of a heart attack at his home in Hollywood.

Cost Millions To Stamp Out Disease

Huge Sum Spent in California to Prevent Cattle

Sacramento.—Through a report made public by G. H. Hecke, state director of agriculture, it was disclosed that 109,141 head of livestock, mostly cattle, with an appraised value of \$1,262,611, were destroyed during the campaign that was carried on in the spring and summer of 1924 by the State and Federal Governments to control the epidemic of foot and mouth disease. The property loss incidental to the campaign is placed by appraisers of the department of agriculture at \$63,632, making a grand total of \$1,326,243.

U. S. MAY CALL CONFERENCE ON DISARMAMENT

Washington.—The prevailing view in Washington is that if the League of Nations abandons its proposed disarmament conference, the United States will call another conference dealing with reduction of land and naval armaments. Although the White House has not announced any intention to do this since news came of the British session with regard to the Geneva protocol on security and disarmament, feeling here is that President Coolidge will be forced to act. It is felt that his earlier utterances have made it impossible for him to avoid calling such a conference.

Geneva.—Great Britain's request that the coming session of the League of Nations in Rome should not take up the question of the Geneva protocol on security and disarmament, will mean adjournment of the armaments conference until 1926, with the possibility of a revision of the protocol itself at the next assembly meeting. It is deemed in official circles here that officials, however, are careful to insist that postponement does not mean abandonment, emphasizing that it is best to proceed slowly.

Britain Will Send Delegation to Rome

Indicates Government's Policy Is To Support Armament Protocol

London.—Foreign Minister Austen Chamberlain has announced that he would attend the League of Nations conference at Rome, December 8th, as the head of the British delegation. This announcement is taken as an indication that the Conservative Government's policy will be one of closest co-operation and support for the league. It contradicts the idea that the recent British refusal to accept the posthumous of the armament protocol discussion at Rome was in any way connected with the possibility of non-support on the part of Great Britain of the protocol.

Wins Honors At Royal Winter Fair

Percheron From E.P. Ranch Is Awarded

Toronto.—Winning first honors in a group of eight, Princeton Commodore, yearling Percheron stallion, bred on the E.P. Ranch in Alberta, was awarded the blue ribbon in his class at the Royal Winter Fair here.

Princeton Commodore was bred on the Prince's ranch last year and sired by the imported stallion Job. Competition was close and the result in doubt for some time. The same horse will also be shown in the champion Percheron class. Princeton Base, another yearling of the E.P. Ranch, was not shown, suffering from slight injuries sustained the day before she entered for Toronto.

Travelled At High Speed

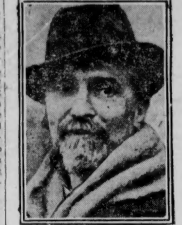

Motor Mechanic in Newfoundland

St. John's, Nfld.—At the trial of Leonard G. Reid, son of the late Sir W. D. Reid, who is facing a charge of manslaughter following the killing of six men last September, when his automobile ran into a crowd of people here, it was stated that Reid's car was travelling at the rate of 50 miles an hour when the accident took place. The statement was made by a motor mechanic named Silverlock.

Want Duty Placed On Magazines

Toronto.—The Dominion government will be asked to consider the advisability of imposing a duty on magazines coming into Canada from the United States if a resolution passed at the annual convention of the Associated Boards of Trade and Chambers of Commerce in Ontario here, is accepted by the executive of the organization.

Bank of England Governor

MONTAGU NORMAN who has been recommended for reelection as the governor of the Bank of England. This will make his sixth consecutive year in office, an honor never previously conferred on any member, the usual term being two years.

Big New Freighter Launched

Latest Addition to Great Lakes Fleet

Midland, Ont.—The new freighter, Gleniffer, which was under construction in the Midland shipbuilding company's yard during the summer, has been successfully launched. The vessel is the latest addition to the fleet of the Great Lakes Transportation Company and is the second largest freighter ever built in Canada for Great Lakes service.

Death Of Cardinal Logue

Passing of Primate of Ireland Mourned By People Of Erin

Belfast.—Cardinal Logue, primate of Ireland, died at his home here at 11 o'clock this morning, after a long illness. The cardinal died at his residence, "Ara Coeli," in Armagh. Cardinal Logue celebrated his golden jubilee as a priest on December 21, 1916. He was known as the "grand old man" of the Roman Catholic Church in Ireland. He had a tiny frame but unshaken courage of which he frequently had need during the period of strife in Ireland.

Could Not Dispute Claim

Soviet Government Accepts Possession of State Papers in London

London.—The Soviet government has accepted the claim of the British government to the possession of Chechen State, the former Imperial Russian embassy, as well as the Imperial archives housed there. The Soviet Government arranged to take on the lease of the house from the executors of the late Count Benckendorff, the last ambassador of the Czar to England, and as it has been recognized by the British Government as the "de jure" government of Russia, its claim to the state papers could not be resisted.

Revision Of Grain Act

Will Be Guided Largely By Royal Commission's Report

Ottawa, Ont.—Revision of the Grain Act at the next session of parliament will deal with the fundamental aspects of the measure and will be guided largely by the report of the Royal Commission inquiring into the grain trade. This report will be presented to the house of commons in the near future.

The main question to be dealt with relates to the mixing of grain and the extent to which it should be permitted.

Loan For Soviet Failed

Australians Did Not Subscribe To Help Russian Government

Sydney, N.W.—Replying to a question in the legislative assembly of New South Wales, Hon. Charles William Oakes, colonial secretary and minister of health, stated that the attempt of the Soviet Government of Russia to raise a loan of £200,000 in Australia, has been unsuccessful. The amount subscribed to the loan reached only £200.

Pulpwood Exports Less

Ottawa.—Canada's exports of wood pulp totalled \$40,170,357 during the twelve months ended October compared with \$41,155,525 during the twelve months ended October, 1923. Pulpwood exports in the two periods were \$14,600,000 against \$13,625,000, manufactured paper \$28,400,257 against \$26,530,527.

Discuss Trade Treaty Between Britain and Germany

London.—The negotiations between Germany and Great Britain for a commercial treaty have reached a stumbling block over the question of the 26 per cent. levy on German exports under the Navigation Recovery Act. The British Government is understood to be unwilling to cancel the levy while the Germans are demanding that it be abolished before a satisfactory treaty can be drawn up. The negotiations otherwise are proceeding so amicably that British officials expect Germany will probably receive from her stand to the extent of agreeing to discuss the levy with the other matters connected with the proposed treaty.

Claim Italians Being Watched

Mussolini's Agents Active in England Says Dr. Crespi

London.—Allegations that Italians living in England were watched by Mussolini's agents and, if they spoke against his government, incurred the "long arm" of the Italian police in Italy, were made by Dr. Angelo Crespi, of London University, at a meeting of the newly-formed Italian Opposition Party. Dr. Crespi declared that Italians living abroad who opposed Mussolini were not sure of receiving full letters from home. Any change in their address was noted, and their public speeches were reported in Rome.

CANADA SOON TO HAVE A MINISTER IN WASHINGTON

Proposed Appointment of George S. May

New York.—Canada will have a minister in Washington in the near future, Hon. George S. May, minister of railways, declared in replying to the question of the proposed appointment by Sir Esmé Howard, British ambassador to the United States, at an annual dinner of the Canadian Club.

"After a reference to the close relationship and interlocking interests of Canada and the United States," Mr. May said.

"I raise my glass to Canada, the first of the free peoples of our Empire, to her continued prosperity and to the development of her present future which, I am sure, awaits her in years to come."

"Complete liberty to each individual development of its development with heavy co-operation among them all and the Empire in matters of world policy, is the only policy through which the Empire will be able to hold together and exert its influence in the world," Sir Esme said.

"It will be for her," he added, "to improve to the rest of us the feelings and the attitude of this great American people, with whom we not only desire but intend to live in the most cordial friendship and in peace in the future."

Farmer's Better Off

Montreal.—Though the western crop has been disappointing in yield per acre and wheat production will probably fall more than two hundred million bushels below last year's total, the farmers of the west are better off, owing to the enormous increase in the price of wheat, according to the views of C. W. Peterson, editor of the Farm and Ranch Review, Calgary, who was in Montreal on his way to Europe.

Poland May Join Little Entente

Paris.—Fourpayers are shortly to be opened looking to the entry of Poland into the little entente. Mr. Maun's Belgrade correspondent says he learns. It is probable, the dispatch adds, that representatives of Poland and the little entente governments will meet in Bucharest next month to settle the question.

Changing Name of Capital

On next New Year's Day the name of Christiansburg, capital of Norway, will be changed to "Oslo." There is no change of Christiansburg called Oslo, which was founded by Harold Hardrada in 1046.

Lord Beatty Will Not Resign

London.—The admiralty states that rumors of Admiral Beatty's early resignation as First Sea Lord were unfounded.

WESTERN CANADA CAPTURES PRIZES AT EASTERN FAIR

Toronto.—Never before has the size and importance of the Royal Show been so well demonstrated when the big flag, with its familiar design, was literally filled with stock from practically all over Canada, and a number of outstanding entries from the United States. Each year Western Canada has been sending heavier entries, and this year, there is an exhibit of prairie stock that does credit to any country so new in the breeding business as is Western Canada. The west made the horse show, so far as the draught breeds are concerned.

The Western Canada boys' judging team won the bacon hog judging contest. This team was brought east by the Canadian National Exhibition, and at a banquet tendered them by the Canadian National Railways, they were presented with cups which they won at the Winter Fair. Besides the cup, each boy was presented with a medal by the Canadian National Railways. W. D. Ross, vice-president of the Canadian National, made the presentation. H. S. Arkell, Dominion livestock commissioner, and J. Johnston, general agricultural agent of the Canadian National Railway, also spoke congratulating the boys on their splendid achievement.

The winners of the cup were the boys from Alberta, Pete Wylie and John Wylie, from Saskatchewan, and Johnston, general agricultural agent of the Canadian National Railway, also spoke congratulating the boys on their splendid achievement.

Asks Limitation of Drugs

Canada and China Support U.S.

Geneva.—Canada and China threw their support to the United States proposals for the control and ultimate eradication of the narcotic drugs when the international opium conference resumed its sessions. Hon. Dr. J. B. Macdonald, Canadian minister, pointed out that the United States had enacted laws, the enforcement of which would be sufficient to eradicate the opium evil, if clandestine and organized smuggling did not flood the United States with heroin, morphine and cocaine.

Dr. Macdonald stated that the Canadian government had agreed to the terms of the conference and he appealed to all nations to join in humanity from these "ludicrous monsters."

To Avoid Radio Conflict

The Reassignment of Radio Waves Is Proceeding

Ottawa.—The reassignment of waves to radio broadcasting stations in Canada and the United States has not yet been completed, according to information furnished by the radio branch of the department of marine and fisheries.

At the present time, Washington is busy engaged working on the United States assignment, and Ottawa on the Canadian, and the wave lengths will be so arranged as to avoid conflict between the two countries' radio stations. The change, it is expected, will become effective about the end of December.

Early Court Hearing On Crow's Nest Case

Premier King Will Facilitate Appeal to Supreme Court

Ottawa.—Premier Mackenzie King, while stating that there will be no action by the government regarding the Crow's Nest case after the hearing on December 4, indicated that an early pronouncement by the courts was all that the cabinet is most desirous. There is no doubt that if the appellate provisions in getting leave to appeal to the Supreme Court, which the case heard in December, it will be.

Java Death Roll Doubled

Batavia, Java.—It is definitely established that 600 persons perished in the earthquake which recently shook central Java.

GIN PILLS FOR THE KIDNEYS

Kidney disease is dangerous unless checked. Get a box today before it is too late.

Development of Dairying And Increase in Production Of Creamery Butter In Canada

An outstanding feature of Canadian agriculture in the past few years has been the development of dairying, the industry maintained interest in the production of dairy butter, the maintenance of a consistently high quality, and the extension of markets for the product. While this growth in dairying in the industry has been evidenced in every part of the Dominion it is particularly noticeable, and hence significant in the western area, which has rapidly transformed from an importing to an exporting area, and which is largely responsible for the abundance the Canadian dairy industry has been experiencing.

Canada's output of creamery butter in 1923 was the highest on record, amounting to 120,456,226 pounds valued at \$45,294,098. This compares with a production of 122,501,509 pounds worth \$23,123,252 in 1922. The increase in the quantity of production in 1923 was 19,955,727 pounds or 16 per cent, and in value \$22,170,846 or 9 per cent. The average price per pound in 1923 in all of Canada was 34 cents compared with 32 cents in 1922. The aggregate value of the butter production has only been exceeded on one occasion, when in 1920 the average price was 37 cents.

The province of Quebec led in 1923 in butter production, accounting for 67,794,617 pounds valued at \$23,741,164, followed by Ontario with a production of 51,772,098 pounds worth \$18,434,565. Alberta continued to be the third largest producer with 17,628,534 pounds worth \$5,117,222. In the year Saskatchewan took the fourth rank from Manitoba with a production of 10,357,510 pounds valued at \$3,627,977 against the latter province's output of 10,370,560 pounds worth \$3,624,144. Nova Scotia produced 5,350,665 pounds worth \$1,252,118, that of British Columbia, 2,591,164 pounds worth \$1,229,000. The Yukon and Northwest Territories produced 1,337,437 pounds worth \$242,816; and New Brunswick, 1,231,471 pounds worth \$184,567.

To Help Livestock Men

Move Made by High Commissioner to Reduce Cost of Canadian Meat.
Further consolidation of the regulations of the British Government which govern the importation of meat into this country is being taken up by the new British ministry. What is sought is the abolition of the three-day quarantine prior to shipment and also the requirement that a veterinarian must go overseas with each shipment. Time and cost in the latter case are reduced and thus the effect is felt more in shipments from Ontario than from the west. The department objects to the cost of sending along a veterinarian, 25 cents now being required for a service considered unnecessary on shipments from the west. The department never had the foot and mouth disease which is what is guarded against.

Marrying A Farm

Many Sutures in U.S. Got Land Along With Wife.
"Marrying a farm" is the best done in the North Central States. Kansas, Nebraska, Iowa, Illinois and Minnesota offer a happy hunting ground for the land-seeker, who is looking for an official report, which says that in these states 8.4 per cent of the landowners married a farm. More than 6 per cent of the landowners of Texas acquired land by marriage, while in Kentucky and Tennessee, the report viewed 5.3 per cent had taken a farm along with a wife.

Edmonton Beekeepers

Alberta now has more than 120 beekeepers according to lists which have been obtained by the provincial department of agriculture. No statistics have been compiled as yet on the quantity of honey raised in the province, but this will be done for 1924.

Norway's Merchant Fleet

The combined tonnage of the Norwegian merchant fleet is now the fifth greatest in the world and will probably call the same size as before the outbreak of the World War in 1914. Old or steamships wrecked during the war have been replaced with modern steam and motor ships.

This Haze Turned

It has been customary in the past for eastern pulp mills to ship apple wrappings to British Columbia, but the tide has turned and now the apple wrappings suitable for fruit covering are now being shipped from New Westminster to Montreal in fairly large quantities.

Peace River Outfit

Survey Party is Going Over the Proposed Route.
A survey party of the Canadian National Railway left Edmonton recently to go over the proposed line for the Peace River outfit. There was a half-dozen men in the outfit and they are working under the direction of Engineer Hill, with the object of reaching further data to be placed before the conference of the heads of the Canadian Northern Railway, the C.P. & N.W. Railways, the Dominion Government and the provinces of Alberta and British Columbia, which is to be held in Winnipeg at the end of the year or early in January next.

Engineer Hill and his men have been busy during the fall on the different mountain passes that have offered a route through the Rockies from Grande Prairie and Peace River. With the completion of the reconnaissance in the Pine and Monahan passes they have moved further south to look over the much talked of route through the Selkirk range. The party has made their headquarters on the railway line at Estevan, and are working north from that point on the Canadian National.

The Heritage of the West

Fortify of the Soil is Shown By Generous Yields.
For the four years 1920-23 the average yields of farmers at Dominion experimental farms is given as: Ottawa 49 bushels, Brandon 51 bushels, Indian Head 53 bushels, Lacombe 59 bushels, Red Deer 62 bushels, Swift 73 bushels. The heavy yields on the western farms are not exceptional. They are common both on government and private farms. The percentage of virgin soil of the west makes up largely for the difference in yields by the fact that the farmers have fewer bushels to the acre than his eastern contemporary norally has.

In the coming of the white man the prairie was a great waste of land. The percentage of virgin soil of the west makes up largely for the difference in yields by the fact that the farmers have fewer bushels to the acre than his eastern contemporary norally has. In the coming of the white man the prairie was a great waste of land. The percentage of virgin soil of the west makes up largely for the difference in yields by the fact that the farmers have fewer bushels to the acre than his eastern contemporary norally has.

T.B. Testing Tests

Percentage Of Tubercular Cattle In Alberta is Remarkably Small.
K. L. Richardson, secretary of the Western Canada Livestock Union, and manager of the Calgary exhibition and sales, sent the Free Press the following note in regard to the results of the tubercular testing of livestock: "For the past few years, all cattle that have been tested by the Alberta Cattle Breeders' Association must first have successfully passed the tubercular test. The percentage of reactors in connection with these tests has been remarkably small. The Alberta Cattle Breeders' Association is particularly gratified that, in connection with testing the cattle for the sale held November 5th, there were not a single reactor. Every animal having successfully passed the test."

The Shadow of the Soviet

What the Recognition of the Union of Soviet Republics Means.
The constructive party, with which Mr. MacDonald's Government made its strange terms is the Union of Soviet Socialist Republics, which is a country in the making. It is a definite extension by promising revolution in countries near and far. To recognize this Union is not to recognize Russia or to enter into closer and more friendly relations with the Russian people. It is the recognition of a revolutionary principle into our own sphere of political ideas—London Times.

Would Bar Canned Meat

Fighting that the government an proposed legislation to prohibit the sale of meat in Ontario for a trial as methuselah apples, also of extracts, a department of women composed of members of the United Women's Educational Federal Council, under the leadership of General Nickle and pointed out that the fuel and extracts were being taken as intoxicants.

Koreans Use Cent Heating

The system of central heating in Korea is similar to that of standard Korea. A fire is built in a fire box beneath the home, and the warm air and smoke are carried up the chimney to a chimney on the opposite side.

Will Reduce Membership

The South Australian House of Assembly has carried the proportional representation bill which reduces the membership of the house from 46 to 25.

Will Unharmful Catscombs

The catscombs at Rome will be eliminated during the holy year celebration next year for the benefit of the sliding pictures.

Wheat Pool Anxious About Seed Supply

Storage is Greatest For Oats and Other Cereal Grains.
In anticipation of the essential shortage of good seed for sowing next year, the question of way and means to supply the deficiency through the machinery of the pool is being given serious consideration by the board of directors of the Saskatchewan Wheat Pool at a meeting held in Regina recently.

One problem is a serious one and concerns oats and other cereal grains to obtain a greater extent than wheat. As the pool is not equipped to handle these grains, it was felt that the conditions warrant the re-establishment of the Dominion Seed Purchasing Commission which rendered such useful service in the years 1917 to 1922.

Export Butter To Japan

New Being Exported in Greatly Increased Quantities.
Butter is being exported from Canada to Japan in greatly increased quantities, according to Mr. Kano, commercial secretary at the Japanese consulate at Vancouver. In 1922 a total of 7,851 pounds of butter was shipped from Canada to Japan. This year to date one Western Canadian exporter alone has shipped 20,000 pounds, while there are five other companies in the same business. In 1922 the amount of cheese imported to Japan from this country was only 45 pounds, while one company's shipments this year already are 16,000 pounds.

Canada Needs Imports

Seems to be Necessary for Well Balanced Industrial System.
Those who are rejoicing over the marked decline in imports are bound to realize that a few pounds of imports through the equally marked decline in customs revenue. During the last seven months this has fallen off to the extent of nearly \$4,000,000. The truth is that Canada must have a strong flow of imports. If she is to have a well balanced industrial system. It is also a matter of record that this country is most prosperous when it imports heavily.—Ottawa Correspondent, the Monetary Times.

Prices On Foodstuffs Advance

Some Commodities Retained At Higher Cost In October.
Retail prices in Canada were slightly higher in October than in September, although a moderate decline in prices of potatoes and beef being more than offset by advances in dairy products and eggs. The cost per week of a list of 20 capital foods, for an average family of five, in terms of the average retail prices in 1912, was \$10.14 in October, as compared with \$10.28 for September; \$10.65 for October, 1920; and \$10.92 for October, 1920, which was the peak of high prices.

Prosperity For Canada

Prediction Based on Indications That Have Never Failed.
Canada is due for more prosperous times within the next months, predicts the Hon. J. H. Macphail, president of the Canadian Bank Note Company, speaking before the Ottawa Branch of the Engineering Institute of Canada. Mr. Macphail said that he based his prediction on the fact that there was an increasing demand for more for circulation, as well as for postage stamps and for clear writings. In his 25 years in the bank note business he had never seen these signs fail as indications of a revival of trade.

Our Different Climates

In all press communications on Canadian climate and weather it ought to be kept in mind that Canada from east to west is more than 3,000 miles and from north to south at places 500 to 600 miles. Ontario even is large enough to have a cold winter and a warm one and snow-cold winters on the same day.—Owen Sound Times.

Berlin Has Most Newspapers

In European countries there are 1,800 daily and weekly newspapers, more than in any other country. The number of which are dailies, leads the list. Vienna, which is second, has 66, including 22 dailies.

B.C. Applies For Fiji Islands

The Occidental Pulp Company has applied to the honorable secretary of the Department of Colonies for the Fiji Islands and just recently notified of a good sized order for the Fiji Islands.

Recent Figures Reveal That Cheating

is Expatriated From the United States to 75 different countries and colonies.

That the Chinese Had Moving

Year 3,000 years ago, is said to have been proved by recent investigations.

Additional Special Prizes To Be Awarded To Help International Show Winners

Sugar Beet Factory For Alberta

Erection of Factory in Southern Alberta Seems To Be Assured.
The Canadian Sugar Beet Association, under the leadership of H. B. St. John, general superintendent of the Utah-Idaho Sugar Co., whose headquarters are at Salt Lake City, that a large sugar beet factory would be erected at some point in Southern Alberta at an early date.

Farmers in the south country have guaranteed as six thousand acres of beets on cultivated irrigated land, said Mr. St. John, "which will be sufficient guarantee to warrant our building a factory at some point in Southern Alberta."

Improvement in the Educational Status of the Population

Information is steadily declining through the diffusion, according to information compiled by the Dominion Bureau of Statistics. This improvement in the educational status of the population five years or over, during the last 20 years, is indicated by the decrease in the percentage of illiterates from 10 per cent to 4 per cent. In the last census for the total population five years of age and over, 9.25 per cent of the population was reported as being unable to "read and write" as compared with 10.36 per cent. In 1911 and 1921 per cent, in 1961.

Smuggling Immigrants

Claim: Made That Immigrants to U.S. Are Smuggled Across Canadian Boundary.
A new industry, that of smuggling immigrants across the international boundary into the United States, has developed as a result of stringent regulations which have been adopted by that country. Some immigrants have been reported as being unable to "read and write" as compared with 10.36 per cent. In 1911 and 1921 per cent, in 1961.

Like Alberta Better

British Broker Says It is Finest Yet Reached.
Writing from England in reference to shipments of Alberta butter to that country, one prominent importer broker states: "We have had several good shipments from Alberta creameries this year and are pleased to say that the creamery we have had entire satisfaction with this butter. The product itself has been without fault. It is the best I have ever seen this year from Canada. The texture of your Alberta butter is, in their opinion (the Londoners) superior."

Will Build Rust Laboratory

Next Year.
Mr. McLeod, a Canadian, of the Manitoba Agricultural College, who was in Ottawa in connection with the wheat rust laboratory, in Winnipeg, has been asked to build a rust laboratory in the future. The building will be erected next year, but meanwhile, laboratory accommodation will be provided at the college for the pathological staff to be furnished by the government.

Soil Collect Tax From Dancers

Soviet will collect tax in U.S. on Michael Novikoff's troupe of Russian dancers when they tour the country. The tax is to be 10 per cent of the receipts, and will be quite unofficial. It is expected that the troupe will be in New York, Chicago, or elsewhere, some Soviet agent will be waiting the troupe to see that the proper amount is turned over to his government.

A Good Suggestion

A tramp was delivered recently by Charles Gibson which went approximately 70 pounds to the bushel when sold to the Mitchellton manufacturer of the Mitchellton Elevator. The grain was plump and bright in color. Mr. Gibson found a half section of land, the value of which was \$100,000, and the ninety acres of summer-fallow which averaged thirty-seven to forty bushels to the acre.

Says Frying Restores Hair

Frying restores hair, so Lieutenant Nelson, one of the world-famous expedition, found. He started the slight curl baldness and completed a valuable journey with a thick growth of hair. Most of the other flyers, however, lost some of their hair due to the fatigue of the expedition.

Grain For Pacific Coast

Modification of the restrictions on the loading of grain cars for the Pacific coast, in view of the increased demand for grain, was announced as effective by the Canadian Pacific Railway. Seventy-five cars are to be loaded, instead of 20, the previous limit.

The Grains of France are

Many acres of France are valued each year in France and Italy to supply the world's demand for perfume.

For more than a decade Canada has shown her individual agriculturists been exhibiting at the International Grain and Hay Show at Chicago with results that in a considerable number of cases have been exceptionally gratifying. The numerous championships secured at the show for wheat, oats, and other cereal crops have perhaps constituted the most powerful factor in broadening to the international world at large the high quality of Canadian farm products, the fertility of Canadian land, the beneficence of the Dominion's climate, and the profits to be found in farming with their assets.

It has long been realized that in the achievement of such an honor there was no material profit for a Canadian winner. Generally, in a consideration of the various details entering into the business of exhibiting, the Seed of inquiries he received as the result of his award, he was subjected to a number of inquiries. In 1923, for instance, one hundred members of the Canadian Seed Growers' Association exhibited their products at Chicago, and won less than 25 awards, including six first prizes and the world's championship for both winter and spring wheat. The total value of the 25 awards amounted to only about \$100. Canadian exhibitors have been attracted throughout the year last by the exhibition, the sportsmanship and the valuable desire to bring agricultural renown to their country.

However, in support and appreciation of these efforts and of their true value to Canada, and to offset any disadvantages resulting from the loss of revenue from entry from material consideration, the Canadian Seed Growers' Association has taken the initiative in establishing a fund for additional special prizes to be awarded to Canadian exhibitors of sweetclover and first prize at the International show this year.

Slaughter Buffalo in Montana

National Bison Range Is Now Overstocked With Animals.
Between 200 and 300 bison in the Montana national bison range must be slain this fall. Frank Ross, the director of the range, and an inspection of the grounds convinced the superintendent that the preserve was about to be overstocked.

The sale of buffalo to parks and zoos is not great enough to bring the herd down to the number which is a large number will be slaughtered and sold on the market. Each fall the herd is reduced in this manner. The number of deer is very much better over but will be butchered.

Will Build Rust Laboratory

Next Year.
Mr. McLeod, a Canadian, of the Manitoba Agricultural College, who was in Ottawa in connection with the wheat rust laboratory, in Winnipeg, has been asked to build a rust laboratory in the future. The building will be erected next year, but meanwhile, laboratory accommodation will be provided at the college for the pathological staff to be furnished by the government.

Christmas Toys and Christmas Gifts

There will be a little hard and money tight this Xmas. That's a fact—and facts are hard things to talk down. Just the same—the Kiddies have got to know that it is Xmas and that Santa Claus is coming. I realize this and have a stock of dandy, well assorted toys for the kids—also small dainty gifts for grown-ups. Nothing costing over 25 cents.

Buy your gifts and toys early and let me put your parcel away until Xmas. Drop in anyhow and look over my stock. You will find the little presents you need for the youngsters and relations, reasonably priced.

The Variety

Nothing over Twenty-five Cents.

About Town and Country

Robert Gardiner, M.P., addressed a meeting held in Springsburg school last Thursday afternoon.

A local of the Farmers Union was formed on Thursday last at Valley school, following a meeting addressed by Charles H. Harris.

At the quarterly meeting of the Ladies' Bridge Club, held last Friday at the home of Mrs. H. C. Swartzlander won the first prize and Mrs. M. C. Whitlock won the second prize. This column was a supply of winter socks by having the highest score among the men.

The management of the Oyen Theatre resumed a change in their program. Commencing this week they have selected a schedule of two pictures a week, which will be shown on Monday and Tuesday and Friday and Saturday. Wednesday shows will be discontinued. Their program for the few weeks includes a number of exceptionally good shows. Watch the Theatre advertisement on the front pages.

Art Wade, our enterprising theatre manager, expects to have his lighting first ready to give service 1 1/2 weeks. Since the disastrous fire of 1922 which destroyed the plant of the Peterson Motor Co., the town has been without electric lights, with the exception of a few individual cutouts. Mr. Wade's new venture will do much to improve the town's appearance and to give the new service, when started, should prove a popular one.

An organization meeting of the Oyen Liberal Association was held last Saturday in the office of J. J. Kelly. The following officers were elected: J. J. Kelly, president; William Denton, vice-president; A. M. McQuarrie, secretary-treasurer. J. J. Kelly and William Denton were appointed as delegates to attend the convention to be held in Calgary on November 27, with A. M. McQuarrie and James Lees as substitutes in the event of the first named being unable to go.

A Joint Policy

Hon. J. E. Brownlee, Attorney-General of Alberta, conferred this week with the attorneys-general of Manitoba and Saskatchewan as to a joint policy to be adopted in regard to the protest against the abrogation of the Crow's Nest freight rates agreement.

Alberta Judging Teams Win

Considerable distinction has been brought to the province of Alberta during the past week by the success of the stock judging teams which represented the province at the Royal Stock Show at Toronto.

The team in swine judging from Vegreville, comprised of Albert Jones and Peter Wylie, was successful in winning the Canadian National stock judging competition against the other western teams at Toronto. This team won the C.P.R. silver trophy in the swine judging competition of the boys and girls clubs in northern Alberta some weeks ago also the free trip to the Toronto show offered by the Canadian National Railways. The team was coached by F. H. Newcombe, district agriculturalist of the provincial department at Vegreville.

The Macdonald cup in the stock judging contest at Toronto was won by the team from Alberta universities comprised of Ties Devlin, Wyn Gatliffman, Melvin McArn, C. E. Johns and L. B. Thomson, in charge of Prof. Backwell, of the animal husbandry department of the university. Premier honors in the entire competition were carried off by Devlin.

The increase in cream graded this year over last year in the ten months has been 21.2 per cent. The amount of butter graded in the ten months has been 11,965,223 lbs. compared with 9,657,582 lbs. for the same period of last year, an increase of 42.6 per cent.

Annual Seed Fair

Preparations are now going forward for the annual provincial seed fair which is to be held this year at Calgary, from January 20 to 25, and which is receiving the active support of the Calgary Board of Trade. The seed fair

OBITUARY

OSCAR MARTIN LARSON

The death of Oscar Martin Larson occurred at his home, nine miles south of Oyen, on Thursday, November 20. A funeral service was conducted in Oyen Union church the following day by Rev. R. H. C. Swartzlander, and the interment followed at Oyen cemetery. Mr. Larson, who died in his 45th year, came to this district in the spring of 1912. Being one of the pioneers of the district he was well known locally, and was held in high esteem by his friends and neighbors. He was born in Peggone, Illinois, July 15, 1879. He is survived by his wife, Mrs. Ingrid Larson, three children, Julia O., age 9 years, Melvin, age 7 years and Maxine, age 5 years, also two brothers, John, of St. Paul, Minn., and Theodor, of Redox, Calif.
